### PLEASE READ CAREFULLY

Careful deliberation should be taken prior to making any management or disciplinary decisions based solely on the survey results.

The DEOCS report provides valuable information about members' perceptions of the organization's climate. It is important to review all sections in this report. Compare the information presented in *Section III, Overall Unit Summary*, *Section IV, Climate Factor Subgroup Comparison*, *Section V, DEOCS Summary of Survey Item Responses*, along with *Appendix, Written Comments from Your Organization*. Doing so can help create a more complete picture and help validate potential areas of concern.

Individual Service instructions typically require organizations to use multiple approaches, including individual interviews and/or focus groups, to more comprehensively characterize the command's climate.

For example, the climate factor subgroup comparisons provided in *Section IV* can help identify subgroups with lower favorability ratings, and conducting focus groups and interviews with members of these subgroups can clarify their perceptions regarding a climate factor, and the reasons why these perceptions exist.

For additional information regarding climate factors, focus group/interview questions, or action planning, please visit DEOCS.net **Assessment to Solutions:**

## I. HOW TO INTERPRET YOUR DEOCS

1. Start by looking at the demographic breakout in *Section II, Demographic Breakout*. The table displays the number of respondents by their demographic features. Survey respondents can select different options when completing the demographic portion of the survey, so numbers may not match the total personnel assigned. Determine how closely participants in each demographic group represent the overall assigned population. Note: disparities in responses presented in the tables throughout the report are due to missing or erroneous responses.
2. Identify areas of concern and strength (both for your overall unit and subgroups) using the color-coded comparisons:
  - a. Unit: Examine *Section III, Overall Unit Summary* to compare your unit's favorability\* percentage to units of a similar organization function, and your parent Service branch on each DEOCS factor.
  - b. Subgroups: Examine *Section IV, Climate Factor Subgroup Comparisons* to compare perceptions among subgroups. No data are displayed in cases where fewer than five people in any subgroup complete the survey.
3. Examine the item-level results using the favorable/unfavorable response rates in *Section V, DEOCS Summary of Survey Item Responses*. This can help identify those items with high levels of unfavorable responses.
4. Examine the written comments associated with an area of concern to determine whether any of the comments reflect negative perceptions that may help explain the numerical findings. Comments can be easier to analyze if they are broken into themes.
5. Based on the degree of favorability of the item-level responses and written comments, determine if the apparent climate of your unit or any subgroup(s) warrants further action.
6. In such cases, use those findings to guide follow-on climate assessment actions (e.g., determine the demographic composition of focus groups and the topics to discuss with them; identify records and reports to analyze to validate perceptions, develop a plan of action to correct validated issues, etc.). For more strategies to create a healthier command climate, refer to *Section VI, Recommendations*.

\* Note: There are seven response options for each item that range from unfavorable to favorable. Because the scale has a 7-point range, three of the response options are categorized as unfavorable (e.g., strongly disagree, disagree, slightly disagree), one response option is considered neutral (neither agree nor disagree), and three response options are categorized as favorable (e.g., slightly agree, agree, strongly agree). Negative worded items noted with an asterisk (\*) have their scales reversed. Therefore, a favorability percentage would be interpreted as the average of your favorable response options summed.

### HOW TO INTERPRET DEOCS COLOR CODING

Color Coding	Category	Criteria	General Interpretation
<b>Green</b>	Excellent	90% and above favorable responding	<ul style="list-style-type: none"> <li>• Almost complete unit endorsement of scale</li> <li>• Area of excellence and maintenance/stability actions recommended</li> </ul>
<b>Blue</b>	Adequate	Between 70% and 89% favorable responding	<ul style="list-style-type: none"> <li>• Majority of unit endorsed scale and reached recommended endorsement threshold (70%)</li> <li>• Area not of concern but room for improvement</li> </ul>
<b>Yellow</b>	Caution	Between 50% and 69% favorable responding	<ul style="list-style-type: none"> <li>• Majority of unit endorsed scale but did not reach recommended endorsement threshold (70%)</li> <li>• Area flagged for concern. Actions should be considered to boost endorsement</li> </ul>
<b>Red</b>	Improvement Needed	Below 50% favorable responding	<ul style="list-style-type: none"> <li>• Majority of unit did NOT endorse scale</li> <li>• Area of great concern and corrective actions must be taken ASAP</li> </ul>

## II. DEMOGRAPHIC BREAKOUT

Other	1	0.1%
Supervisor (civilian only)	0	0.0%
Non-Supervisor (civilian only)	0	0.0%

Total

879

For the majority/minority subgroup categories, the majority category includes all respondents who listed their race as "White," and their ethnicity as "not Hispanic." All respondents who select any other race and/or Hispanic are included in the minority subgroup; the "Declined to Respond" designation includes those respondents whose responses to the race and ethnicity items render it impossible to classify them as majority or minority.

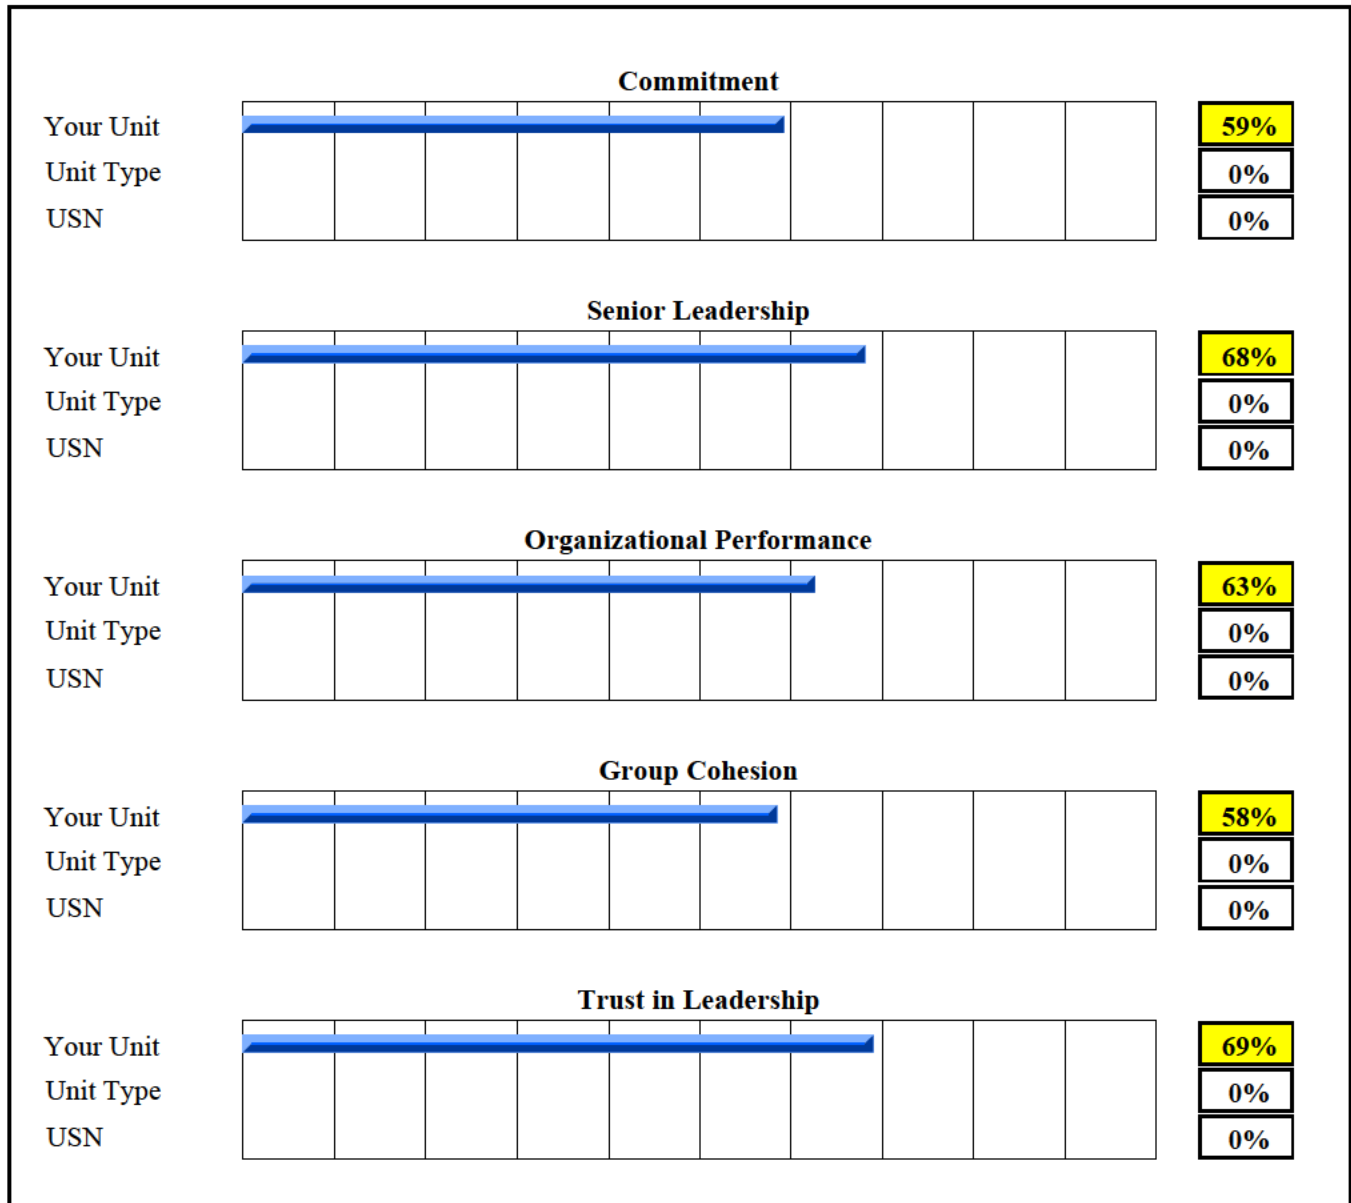

All Warrant Officers (WO1 - CW5) will be combined with Junior Officers in *Section IV, Climate Factor Subgroup Comparison*. Additionally, all Wage Grade and Non-Appropriated Fund civilians will not be in the Junior/Senior Civilian breakout within *Section IV, Climate Factor Subgroup Comparison*.

### III. OVERALL UNIT SUMMARY

The figures below compare your organization's favorability ratings for each climate factor against units in your Service with similar functions, and to your parent Service. Similar function units and Service favorability ratings are updated on a bi-annual basis. The box to the right of each figure displaying your organization's favorability rating will be color-coded red, yellow, blue or green. Please refer to **How to Interpret DEOCS Color Coding** (pg. 4) for more information regarding the color-coding. Percentages for Unit Type and Service will not be available until a representative sample can be obtained to generate an accurate percentage.

## IV. CLIMATE FACTOR SUBGROUP COMPARISONS

### Organizational Effectiveness Factors

The following figure displays the **Organizational Effectiveness (OE)** Factor favorability ratings by demographic subgroup. No data are displayed in cases where fewer than five people in a subgroup completed the survey; this helps maintain respondent anonymity. Refer to *Section V, DEOCS Summary of Survey Item Responses* to view the respective item level response frequencies for each factor.

## Equal Opportunity / Equal Employment Opportunity / Fair Treatment & Sexual Assault Prevention and Response Climate Factors

The following figure displays the **EO / EEO / Fair Treatment & SAPR** Climate Factor favorability ratings by demographic subgroup. No data are displayed in cases where fewer than five people in a subgroup completed the survey; this helps maintain respondent anonymity. Refer to *Section V, DEOCS Summary of Survey Item Responses* to view the respective item level response frequencies for each factor. SH and SA refer to Sexual Harassment and Sexual Assault respectively.

## V. DEOCS SUMMARY OF SURVEY ITEM RESPONSES

The following tables and figures provide the item-level response frequencies across all the DEOCS factors. The total percentage of responses and color coding for each factor mirror those found for that factor in *Section III: Overall Unit Summary*. Factor results for Bystander Intervention, Sexual Assault Reporting Knowledge, Unwanted Workplace Experiences, Connectedness, Hazing, and Bullying are presented at the end of the following tables due to different response scales. Only favorable response totals are presented in the color shaded area.

The items for both the Sexual Assault Retaliation and Sexual Harassment Retaliation factors are negatively worded; therefore agreement with these items indicates an unfavorable response. Because all of the questions on this scale are negatively worded, the total disagreement responses to the items are color coded. Following the color-coding convention as in the rest of this report, this color coding reflects the percentage of favorability on the questions/scales.

## Bystander Intervention Experience in Past 12 Months

Respondents were asked if they have observed a situation they believed was, or could have led to a sexual assault within the past 12 months. Respondents' responses to this *observation* question are displayed in Figure 5.

**Figure 5. Respondents who Observed a High Risk Situation**

If respondents answered “yes” to the observation of a high risk situation question, they were prompted to identify the response that most closely resembled their actions. Table 3 displays the responses of those who completed the question across your organization.

**Table 3. Respondents' Reported Actions Taken Following High Risk Situation**

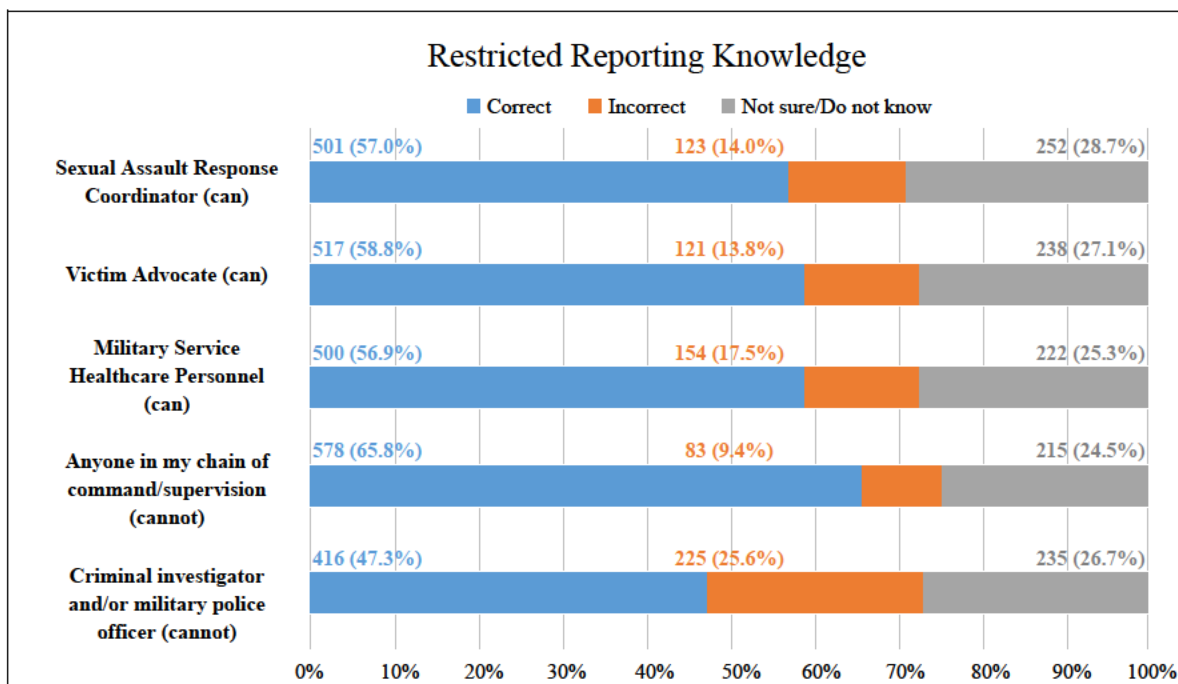

If yes, in response to this situation, select the one response that most closely resembles your actions.		
	Number	Percent
I stepped in and separated the people involved in the situation.	9	25.0%
I asked the person who appeared to be at risk if they needed help.	11	30.6%
I confronted the person who appeared to be causing the situation.	5	13.9%
I created a distraction to cause one or more of the people to disengage from the situation.	0	0.0%
I asked others to step in as a group and diffuse the situation.	1	2.8%
I told someone in a position of authority about the situation.	3	8.3%
I considered intervening in the situation, but I could not safely take any action.	1	2.8%
I decided to not take action.	6	16.7%

## Sexual Assault Reporting Knowledge

Knowledge of the sexual assault reporting options is assessed using two questions. The first item reads, “All of the following types of people can receive an Unrestricted Report of sexual assault. However, a Restricted (confidential) Report can only be made to certain people. Please identify which of the following types of people can and cannot take a Restricted Report.” The Sexual Assault Response Coordinator, Victim Advocate, and Military Service Healthcare Personnel can take a Restricted Report. “Anyone in my chain of command” and “Criminal investigator and military police officer” are incorrect answers. These persons cannot take a Restricted Report. Figure 6 displays the percentage of members within your organization who correctly and incorrectly identified who can and cannot take a Restricted Report.

The second item reads, “Service members who report they were sexually assaulted are eligible for the service of a military attorney.” The correct answer is “True”. Figure 7 displays the percentage of members in your organization who correctly identified who is eligible for the service of a military attorney.

**Figure 6. Respondents’ Restricted Reporting Knowledge.**

**Figure 7. Respondents’ Knowledge of Military Attorney Eligibility.**

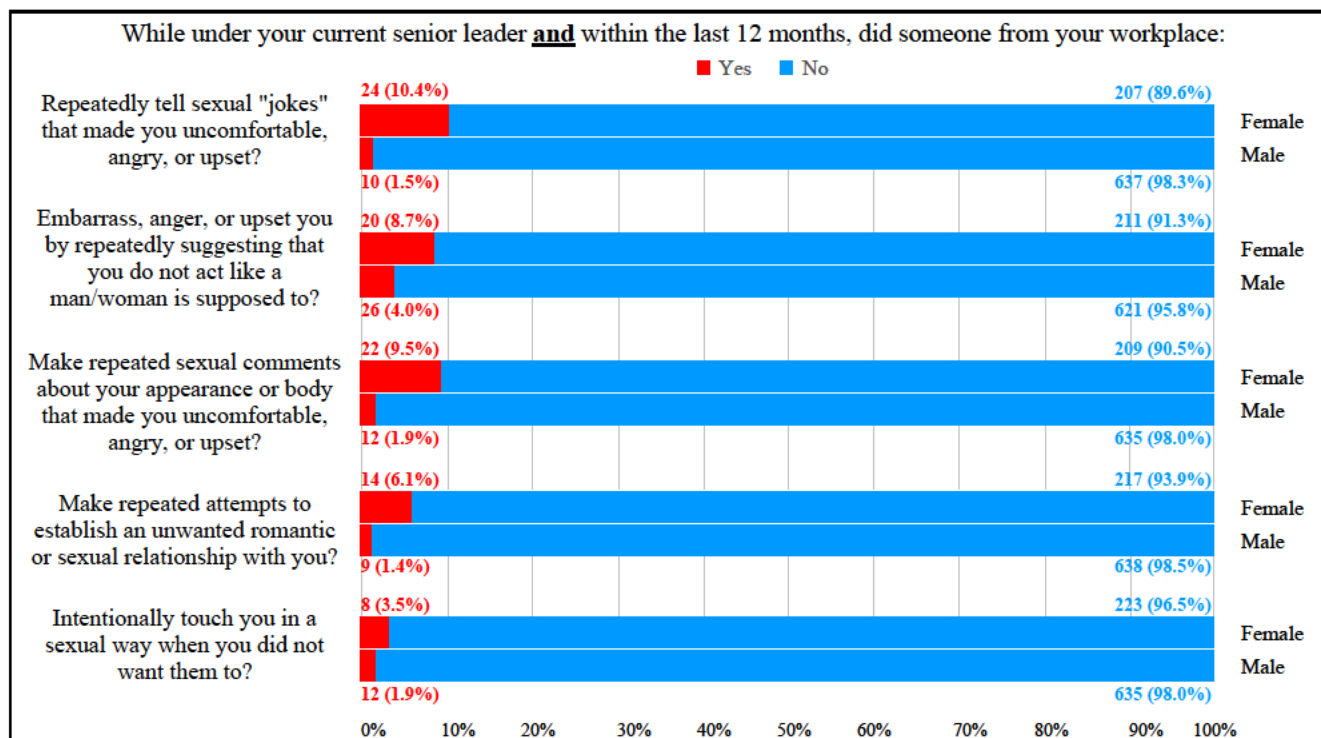

## Unwanted Workplace Experiences

Below is the presentation of Yes/No response frequencies to the Unwanted Workplace Experience items. No data are displayed in cases where fewer than five people in a subgroup complete the survey.

**Table 4. Respondents' Overall Unwanted Workplace Experience Responses**

While under your current senior leader <u>and</u> within the last 12 months, did someone from your workplace: (Overall)				
	Yes	Percent	No	Percent
Repeatedly tell sexual "jokes" that made you uncomfortable, angry, or upset?	34	3.9%	844	96.0%
Embarrass, anger, or upset you by repeatedly suggesting that you do not act like a man/woman is supposed to?	46	5.2%	832	94.7%
Make repeated sexual comments about your appearance or body that made you uncomfortable, angry, or upset?	34	3.9%	844	96.0%
Make repeated attempts to establish an unwanted romantic or sexual relationship with you?	23	2.6%	855	97.3%
Intentionally touch you in a sexual way when you did not want them to?	20	2.3%	858	97.6%

## Connectedness

Connectedness is defined as a frame of mind that reflects an individual's outlook on life and perceptions of belongingness, well-being, and social support. Reflects a member's viewpoint that they are relevant, contributing, and have relationships upon which they can confidently depend on in times of need. Burdensomeness and Belongingness are two subfactors that when combined, create an overall Connectedness factor.

**Figure 9. Percentage of Respondents' Overall Connectedness**

The definitions of Hazing and Bullying were obtained directly from the Deputy Secretary of Defense Memorandum, "Hazing and Bullying Prevention and Response in the Armed Forces," dated 23 December 2015.

## Hazing

The figure below displays response frequencies to the Hazing item. Please note that respondents' option to select more than one type of Hazing behavior accounts for disparities that may appear in the totals shown below.

## VI. RECOMMENDATIONS

The following section provides interpretation of the DEOCS report and recommended follow-on actions. Based on the data obtained, your organization's DEOCS results may display both organizational strengths and concerns. It is important to not only review *Section V, DEOCS Summary of Survey Item Responses*, but to contrast that information with *Section IV, Climate Factor Subgroup Comparison*. Additionally, the *Written Comments*, may also help to validate some areas of concerns within Sections IV and V; please ensure you review that area to determine if there are comments that address any areas of concern.

This section also seeks to provide guidance for identifying additional steps in the climate assessment effort, and prescribe actions to help address organizational concerns.

Compare subgroups to determine whether diminished perceptions of climate factors are more prevalent among specific groups, and the sources of those perceptions.

### **Excellent/Adequate**

Seek to identify and reinforce those practices and programs currently in place.

Reinforce behaviors that create a climate of inclusion, supporting and preserving the dignity and worth of all members.

Continue to promote and maintain a healthy human relations climate. This can be done by ensuring all members in the unit understand their roles and responsibilities.

Share positive results to enhance members' commitment to the organization and its mission.

Consider utilizing training aids to further provide awareness and knowledge regarding key factors.

### **Caution/Improvement Needed**

Examine favorability ratings among specific climate factors and demographic subgroups to determine whether diminished perceptions are more obvious among some of them.

After identifying the specific climate factors with low favorability ratings and those demographic subgroups that harbor negative perceptions regarding them, use these findings to plan follow-on assessment efforts, including focus groups, interviews, and written record reviews.

Conducting focus groups and interviews with members of these subgroups can help determine the source and extent of specific perceptions.

Develop an action plan to address each specific validated concern, and socialize the plan with members. Set a timeline for each action item, and provide timely feedback on progress accomplishing them. This will demonstrate your willingness to listen to your subordinates, and take action to improve conditions whenever possible.

## **MAKING CLIMATE ASSESSMENT RESULTS WORK FOR YOUR ORGANIZATION**

1. Share the results with members of your organization.
2. Involve key leaders; let members know you are acting on their feedback.
3. If needed, establish an action team to develop and implement a plan for organizational improvement.
4. Conduct another climate assessment in accordance with your Service component directives to determine the effectiveness of the corrective actions that were taken to remedy validated perceptions.

We trust these recommendations for interpretation will prove useful. The DEOCS can help commanders improve the readiness within their commands. To make best use of this tool, DEOMI provides tools and products designed to address the mission impacting issues that were identified during the climate assessment process.

## **ASSESSMENT TO SOLUTIONS**

The Assessment to Solutions section of [deomi.org](http://deomi.org) was created to support leaders and equal opportunity professionals throughout the climate assessment process. Assessment to Solutions provides products that help identify appropriate follow-on climate assessment efforts, aid in the development of an action plan to rectify workplace conditions that negatively impact climate, and training materials that can be incorporated in an action plan.

The Assessment to Solutions area parallels the main assessment sections of the DEOCS, which include OE, EO/EEO/Fair treatment, and SAPR. Each area further addresses each climate factor included in the section, and provides a host of products for each.

Access to products can be found at the “Assessment to Solutions” website which is designed to support leaders and equal opportunity professionals. To access the site go to:

## Appendix D: Operational Stress Control (OSC) Report

The Navy Operational Stress Control program works to help build resilient Sailors, families, and commands. Some stress is good because it can push a Sailor to do his/her personal best. However too much stress can harm both Sailors and commands and negatively impact mission effectiveness. This report gives you, the Commander/Commanding Officer, insight into the level of stress within your command and what some of the perceived reasons for that stress may be. We also offer you the chance to see how your command compares to the rest of the Navy by community. While it is impossible to remove every stressor faced in Navy life, we offer some recommendations for actions you can take to mitigate stress as well as strengthen or build command resilience. On the last page of this report, you will find a complete copy of the Stress Continuum, which describes each of the stress zones and actions that individuals, leaders, and family members can take to return to the Ready “green” zone. Please take a few minutes to review the chart and refer to it during your review of your command report. If you have any questions or would like additional information about OSC, please visit our website [www.navynavstress.com](http://www.navynavstress.com). If you have questions concerning the OSC survey or report, please call (901) 874-2256 (DSN 882).

### PART I: Overall Stress Assessment

#### A. Stress Continuum Model

##### 1. How familiar are you with the Stress Continuum Model?

	Frequency	Percent (%)
Confident	235	26.98
Can Apply	251	28.82
Understand	191	21.93
Slightly familiar	105	12.06
Not at all	89	10.22
Total	871	100.00

##### 2. During the PAST 30 DAYS, which stress zone most accurately describes your command?

	Frequency	Percent (%)
Green	102	11.71
Yellow	309	35.48
Orange	227	26.06
Red	79	9.07
Do Not Know	154	17.68
Total	871	100.00

**3. During the PAST 30 DAYS, which stress zone most accurately describes yourself?**

	<b>Frequency</b>	<b>Percent (%)</b>
Green	175	20.09
Yellow	314	36.05
Orange	194	22.27
Red	57	6.54
Do Not Know	131	15.04
Total	871	100.00

**B. Work Stress**

**4. During the PAST 12 MONTHS, (or since you reported to current command), how much stress did you experience at work or while carrying out your professional duties?**

	<b>Frequency</b>	<b>Percent (%)</b>
A lot	383	43.97
Some	311	35.71
A little	135	15.50
Not at all	42	4.82
Total	871	100.00

**C. Outside Stress**

**5. During the PAST 12 MONTHS, (or since you reported to current command), how much stress did you experience outside of work (in your family or social life)?**

	<b>Frequency</b>	<b>Percent (%)</b>
A lot	174	19.98
Some	250	28.70
A little	320	36.74
Not at all	127	14.58
Total	871	100.00

## D. Individual Stress - Past 30 Days

NOTE: “Individual Stress” is made up of the following four items:

In the PAST 30 DAYS...

- How often have you felt unable to control important things in your life
- How often have you felt difficulties were piling up so high that you could not overcome them
- How often have you felt confident about your ability to handle your personal problems
- How often have you felt things were going your way

(HIGHER AVERAGE = HIGHER STRESS):

If the “Unit” average is higher than the “Navy” average, then your unit is displaying a higher level of individual stress. Equally, if the “Unit” average is lower than the “Navy” average, then your unit is displaying a lower level of individual stress. Navy and Unit averages are based on Navy DEOCS respondents. Asterisk (\*) = five or less respondents.

	<b>Navy Average</b>	<b>Unit Average</b>
Aviation	9.63	10.13
Expeditionary	9.26	11.67
Information Warfare	9.25	10.02
Medical	9.14	10.96
